Message about ACA Changes to Form 1095-B for Website

On December 23, 2024, two pieces of legislation were signed into law, the Paperwork Burden Reduction Act and the Employer Reporting Improvement Act (together, the “Acts”), that aim to ease the administrative and reporting burdens on health plan sponsors and insurance providers under the Affordable Care Act (“ACA”). The Acts permit plans and employers to provide the forms only upon request instead of sending them to every covered individual. The plan must provide it by the later of January 31 of the year following the form's reporting year or 30 days after receiving the request. Please click on the link below for information on how to receive IRS Form 1095-B.

IMPORTANT HEALTH COVERAGE TAX DOCUMENTS

You may receive a copy of your IRS Form 1095-B upon request. To request a copy of your IRS Form 1095-B you can:
